

Food Connects Us All: Sustainable Local Food in Southern Ontario

Tuesday, April 1, 2008

1:30 – 3:30 pm

Conference Centre, 1st Floor, 1 Stone Road West (at Gordon Street),
Guelph

The Metcalfe Foundation recently commissioned a paper on local sustainable food in Southern Ontario. This paper aims to contribute to a broader understanding of food system dynamics in this province, and is intended as a backdrop for discussions on how Ontario could move toward a truly local sustainable food system through collaboration and the identification of key leverage points for food system change.

The Policy Capacity Secretariat at the Ontario Ministry of Agriculture, Food and Rural Affairs invites you to attend a presentation of the paper's key findings by Ruth Richardson from the Metcalfe Foundation. This will be followed by a panel discussion (panellists TBC) in response to the report, and there will be ample opportunity for dialogue between the audience and the panellists.

This event is open to all interested.

Register by email to Leah.Landriault@ontario.ca or by phone 519-826-3771
